But Wait...
**THERE'S
MORE!**

Oh there's more, lots more, but let's make things perfectly clear before we reveal any more. You refer people to a free program, they play free games, complete free offers, or go shopping in a bargain mall and you make money, lots of money. If they refer others you make money, lots of money. How much money?

Let's take a look at the real potential of this amazing affiliate program.

FUNdraising Wheel Income Potential

Every time someone spins the wheel of prizes, a charity gets money and you get NONE of that. You do however get paid, just not from the charity money. You get paid from the remaining income that the business model produces. The amount you get paid is 50 cents for every time someone you refer spins the wheel. You also get paid 25 cents for every spin made by an indirect referral. That may not sound like much to some but when you factor in the value of spinning the wheel, the ease of which it is to acquire a spin and the importance of spinning the wheel, it isn't hard to imagine the average person spinning the wheel at least 10 times in a week. With that being average, wait until you see what that adds up to!

FUNdraising Wheel Income Projections

Based on the average person spinning the wheel 10 times per week and referring 10 friends and family to do the same, your income could be as follows:

Monthly Income Projections based on the above criteria

# of Referrals	Direct Referral Income	Indirect Referral Income	Total Income
10	\$217	\$1083	\$1300
100	\$2167	\$10,833	\$13,000
1000	\$21,667	\$108,333	\$130,000

Annual Income Projections based on the above criteria

# of Referrals	Direct Referral Income	Indirect Referral Income	Total Income
10	\$2600	\$13,000	\$15,600
100	\$26,000	\$130,000	\$156,000
1000	\$260,000	\$1,300,000	\$1,560,000
